

# Thermofoil Finishes & Door Styles

## Finishes

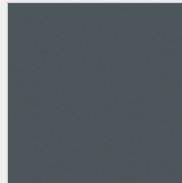

As an alternative to wood and painted cabinetry, the Thermofoil collection features durable and easy-to-clean antibacterial finishes. Choose from solid colours or vertical wood grain finish options. All Thermofoil finishes will have best match melamine print or solid colour finished sides, panels and parts. Case interiors are white to match the backs of doors.

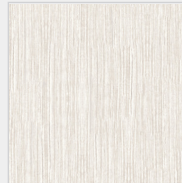

Thermofoil Winter

Thermofoil Opti Grey

Thermofoil Gauntlet Grey

Thermofoil Diva <sup>1</sup>

Thermofoil Magnolia <sup>1</sup>

Thermofoil Sepia <sup>1</sup>

Thermofoil Horizon <sup>1</sup>

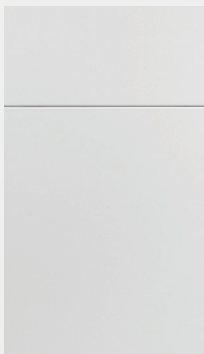

Thermofoil Linear Ash <sup>1</sup>

### Finish Footnotes

<sup>1</sup> Wood grain finishes are not grain matched.

## Door Styles

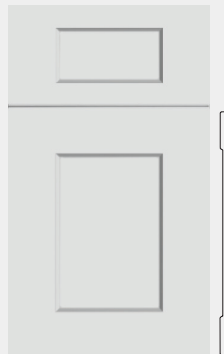

Select from the top trending door styles. Our Thermofoil doors are pressed using the industry's highest quality method, resulting in a beautiful molded one-piece door, providing a clean and consistent look.
